## **Appendix 1: China Industrial Tour Application**

With the rise of high-end manufacturing in China, the developed degree of many high-end manufacturing industries has reached a certain level. The high-end production becomes one of China's key development directions. The Guangdong-HK-Macao Greater Bay Area positions as an international science and technology innovation centre.

In the region, you can find lots of high-quality enterprises. Follow us, we will guide you to explore and visit some top enterprises one by one. You will have an exclusive opportunity to visit their core production, to talk deeply with top management, to have a full understanding of their culture and history.
